

TAKING COURSES OFFERED BY THE LOW VOLTAGE TRAINING ACADEMY

Unlock Your Future in Low Voltage Technology

Start your journey toward a successful, high-demand career. Learn how the Low Voltage Training Academy can provide the skills and knowledge to build your future in a booming industry.

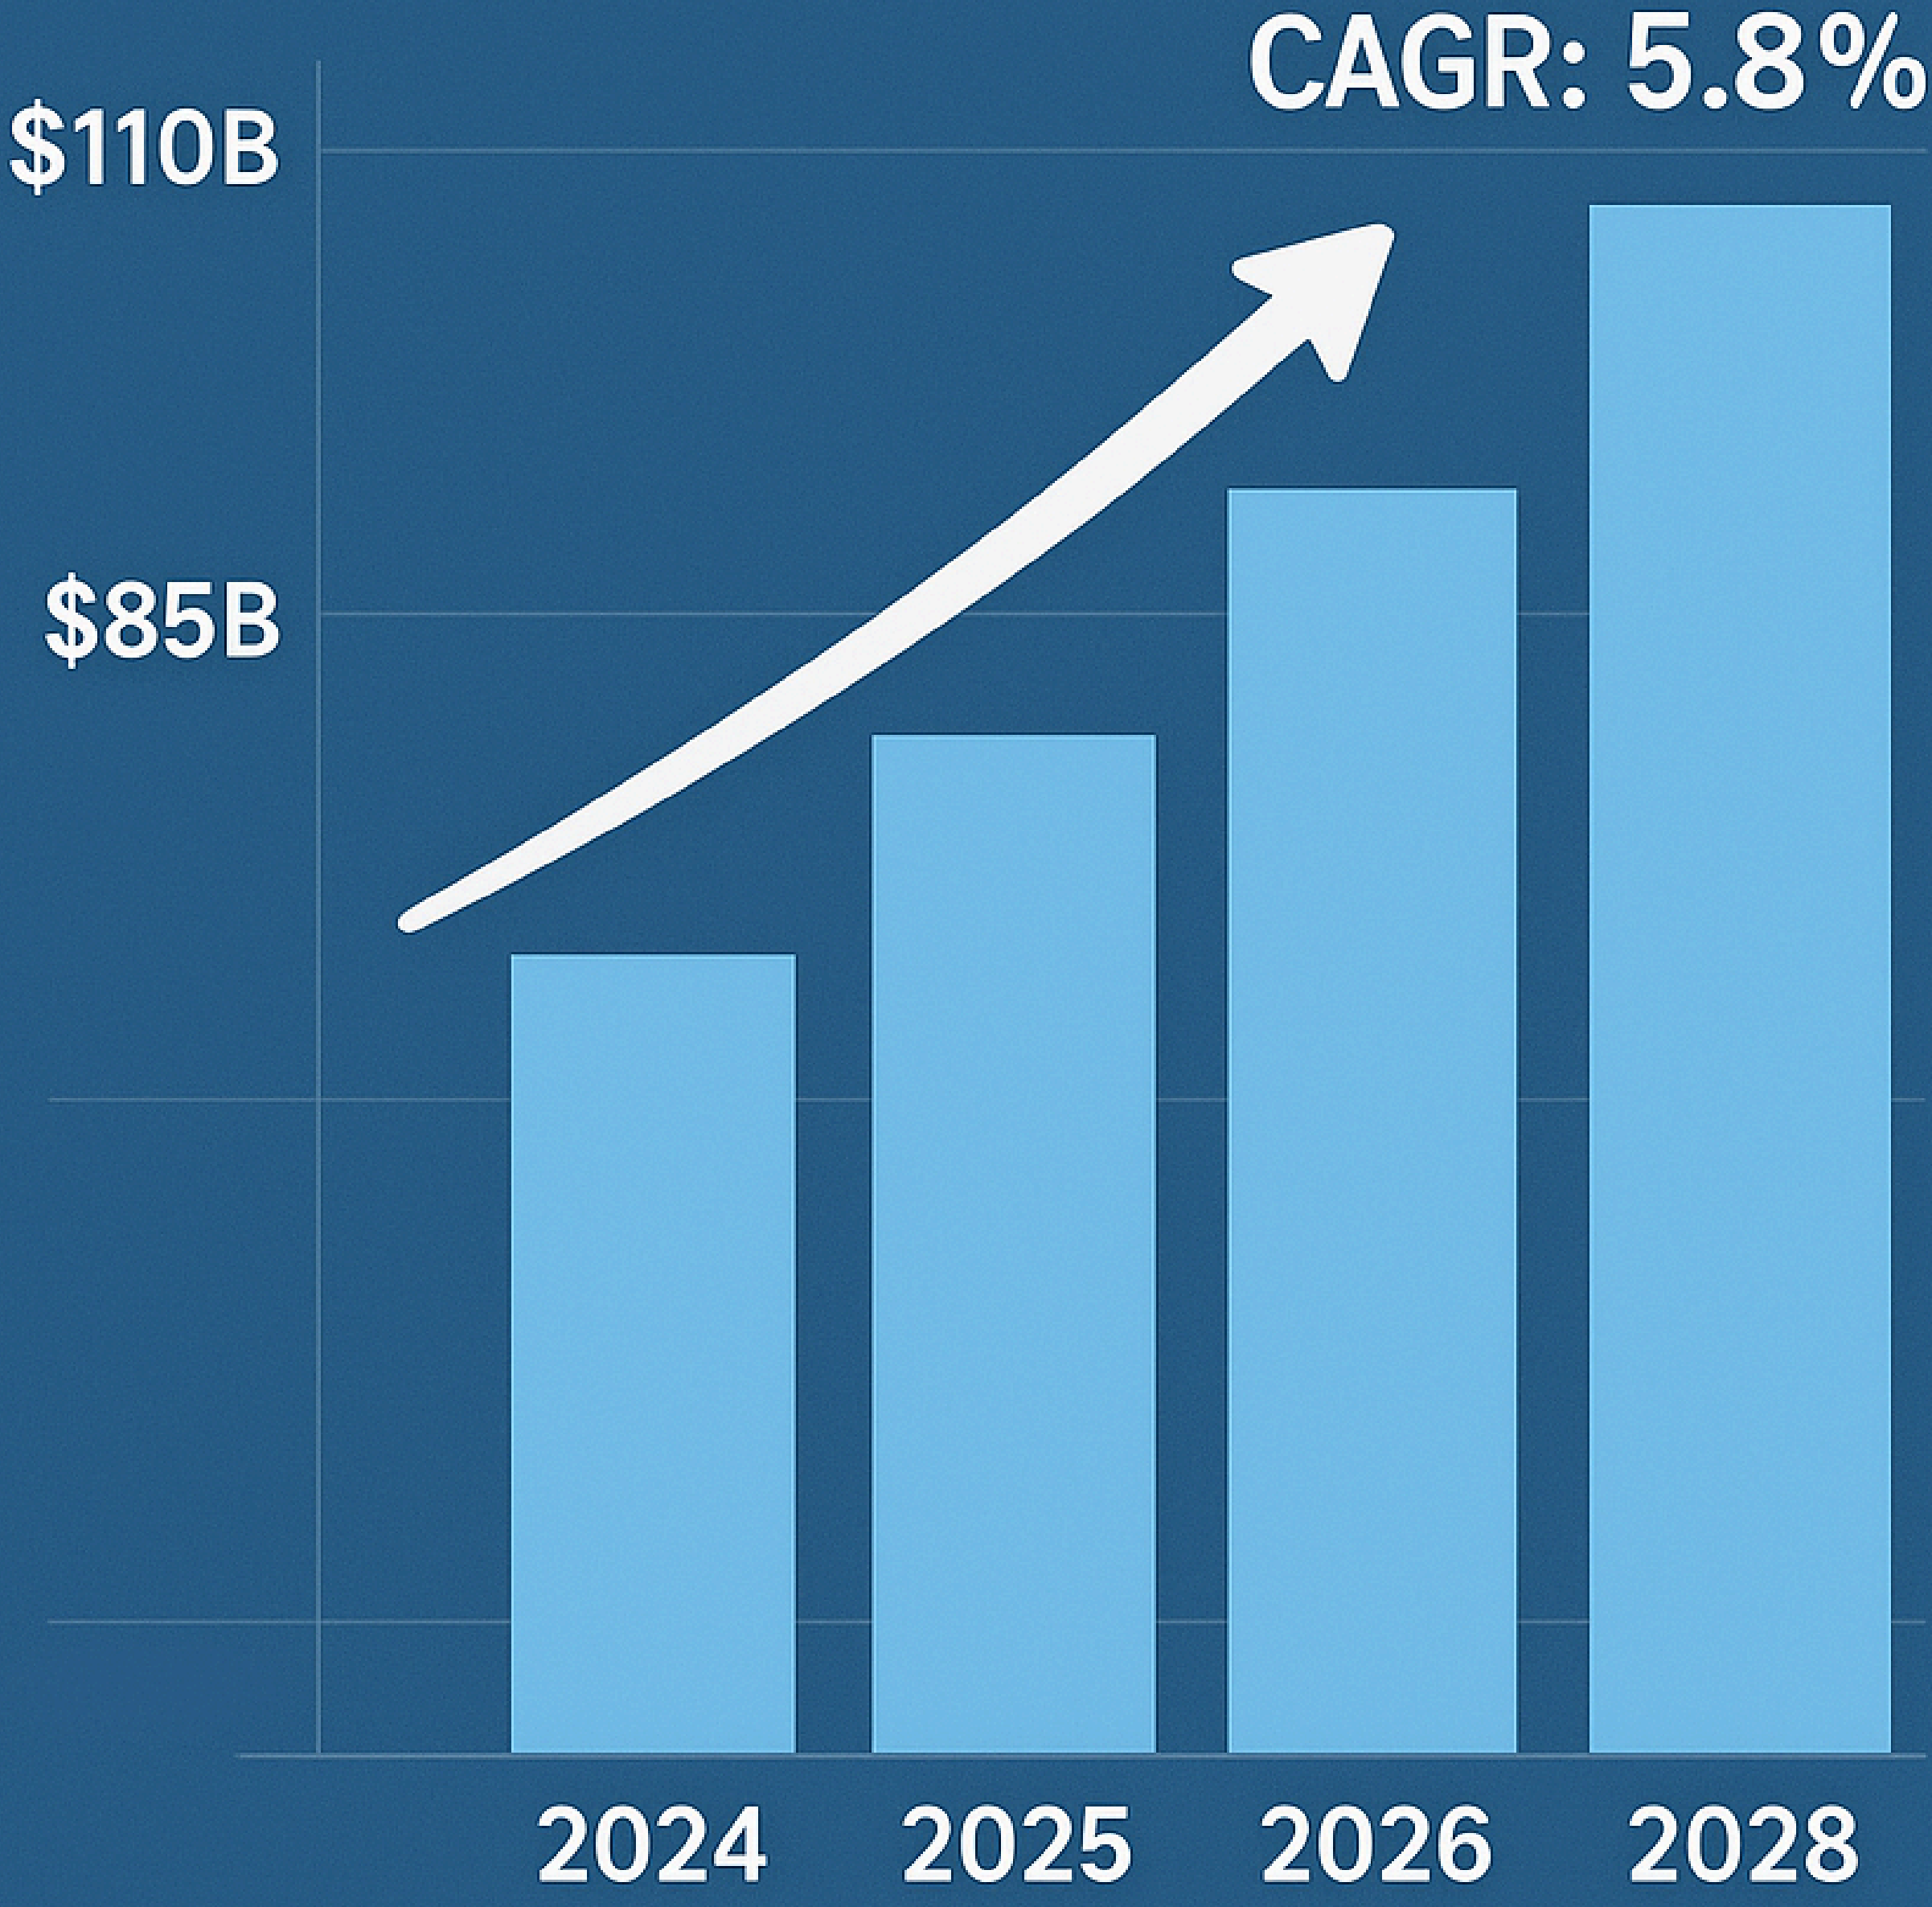

Introduction to Low Voltage

The world is becoming more connected, smarter, and more secure—and at the center of this transformation is low voltage technology. From security systems to smart homes to data networks, the demand for skilled professionals is skyrocketing. The Low Voltage Training Academy offers industry-focused education that prepares you to thrive.

LOW VOLTAGE MARKET: 5-YEAR GROWTH

FREE GUIDE

Introduction to Low Voltage

The low voltage industry is expected to grow by 8–10% annually over the next five years. With the expansion of 5G, smart cities, and increasing digital security needs, this field shows no signs of slowing down. Trained professionals are needed globally, offering career stability and growth.

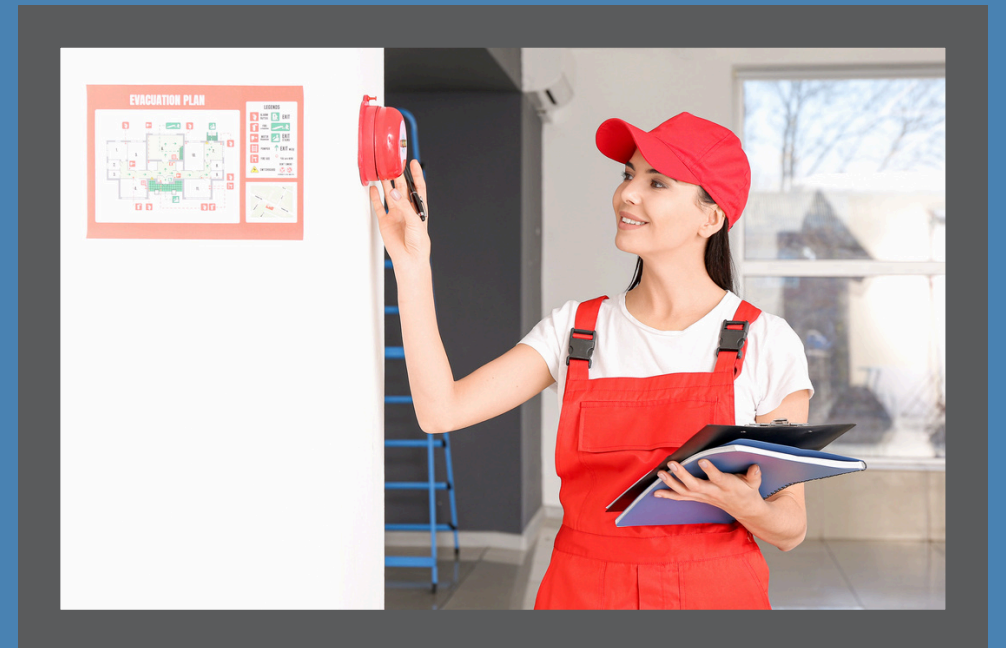

Low Voltage Career Salaries

*U.S. Annual Salaries

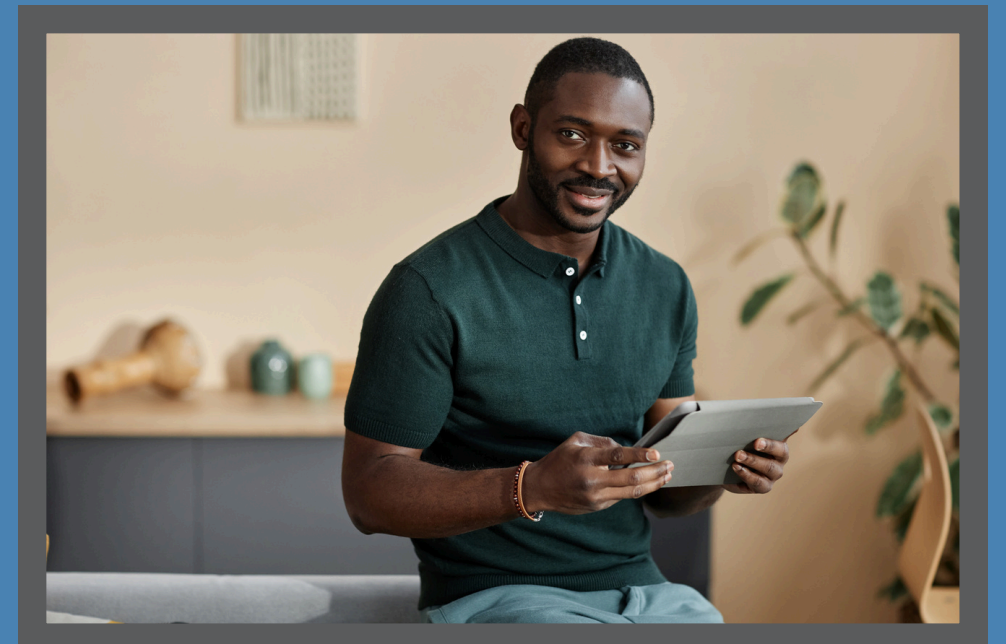

Low Voltage
Technician

\$40,000 - \$60,000

Low Voltage
Installer

\$47,000 - \$64,000

Security Systems
Installer

\$53,000 - \$73,000

Audio/Visual
Technician

\$70,000 - \$90,000

Why Low Voltage is the Career of the Future

- Demand in every sector: residential, commercial, government
- Works in tandem with emerging technologies
- Needed in construction, IT, telecommunications, and security
- Fast-growing field with upward mobility

Fire Alarm Installation & Service

- Learning fire alarm systems offers:
 - Understanding of life safety systems
 - Knowledge of local and national fire codes
 - Opportunities to work in commercial and residential buildings
 - High demand in schools, hospitals, and industrial facilities
 - Certification in fire safety installation increases employability

Security System Installation

- **Security system skills provide:**
 - **Ability to install burglar alarms and motion sensors**
 - **Protection solutions for businesses and homes**
 - **Knowledge of monitoring systems and emergency protocols**
 - **Work opportunities with security companies and private clients**

Surveillance Camera Systems (CCTV)

- **Surveillance system training offers:**
 - **Technical skills in camera setup and DVR/NVR configuration**
 - **Knowledge of networked and cloud-based surveillance**
 - **High demand in law enforcement, businesses, and schools**
 - **Specialized installations like facial recognition and smart analytics**

Data Cabling

- Mastering data cabling opens doors to:
 - Structured cabling design and installation
 - Work in offices, data centers, and smart homes
 - Certifications such as BICSI or manufacturer-specific
 - Essential knowledge for internet and phone connectivity

Audio & Video Systems

- Training in AV systems gives you:
 - Skills to install and configure home theaters, conference rooms, and PA systems
 - Work in both commercial and luxury residential markets
 - Knowledge of acoustics, wiring, and control systems

Access Control Systems

- Access control training equips you with:
 - Knowledge of keycards, biometric systems, and remote access
 - Skills to install secure entry solutions
 - Work with commercial buildings, offices, and government facilities
 - Growing demand in the age of increased security awareness

Systems Integration

- Integration training provides:
 - Ability to combine fire, security, AV, and data systems
 - Efficiency in project management and troubleshooting
 - High-value skill for larger contracts and technical roles
 - Specialized knowledge for smart building technologies

What Makes The Low Voltage Training Academy Unique

- Experienced instructors with 35+ years in the industry
- Hands-on training with real-world equipment
- Certification upon completion
- Industry connections for job placement
- Ongoing support and continuing education

Enroll Today!

- Ready to launch a career in one of the fastest-growing technical trades? Enroll at The Low Voltage Training Academy today and take control of your future.
- Contact Us: Email: info@thelowvoltageacademy.com
- Phone: 404-933-2954
- Visit our website to register and learn more about our programs. Let's build your future —one connection at a time!
